GROUP OF COMPANIES

Balad Al Silm Group of Companies

Profiles

www.baladalsilmgroup.com

Welcome

Balad Al-Silm Group an Iraqi group of companies established in (2004), dealing mainly with the construction industry. More specifically the company deals with building, electrical, electro – mechanical, telecommunication, Oil and Gas, materials supply, and technical supervision projects located around Iraq.

Balad Al-Silm group has a qualified, experienced, and competent staff including engineers, technicians, administrators and others under a professional management. The staff is constantly seeking successful opportunities, while having the capacity to overcome difficulties faced in every project.

We continue to maintain our status as a first-class degree company through maintaining professionalism and ethical standards to gain the trust of our customers as well as ensuring the future success of our company.

Our staff team players are our biggest asset. They have played a crucial role in pushing Balad Al-Silm group to the path of pursuing excellence through a process of planned growth and diversification specialties.

Balad Al Silm Group includes the following companies under the same goals and values :

- **Balad Al Silm for Contracting & General Trading & Oil Services Ltd.**
- **Fanar Al Bahar Company for General Trading Ltd.**
- **Big Crane Company for renting heavy equipment Ltd.**
- **Balad Al Silm for General transport & Renting Machinery & heavy Equipment.**

Our Vision and Business Strategy

Our vision is to become the leading provider for contracting and trading services in the Iraqi market with the highest standards of quality and efficiency.

Our business strategy is based on our highly experienced and professional management team, who provide high quality work and follow the Company's goals, achievements, and values. We also supply high standard products and provide first-class service to our clients.

Our strategy revolves around contributing towards the country's economic development, welfare of the society while complying with health, safety and environmental norms.

Financial Efficiency

We have an experienced financial administration, assisting in providing economical solutions. With their ability to find multiple financial sources through ongoing investigation and research, the company is able to achieve financial efficiency. With the use of modern financial systems, the company's financial records are well documented and recorded with every financial action.

Having a good reputation in the local market also increases our financial abilities in being able to complete large projects and meet client demands while being cost effective.

Company Staff

Balad Al Silm group employees are skilled and experienced engineers, technicians and staff with considerable experience in the area of management, finance, administration, engineering and legal relations.

In addition, our company has a relationship with many of the best technical expertise available in Iraq and outside Iraq.

Such features have made the company distinct and unique compared to other companies currently in Iraq.

Construction Heavy Equipment's and Machines

Our company has a large fleet of Construction Heavy Equipment and Machines with different specializations. The company is considered to have one of the largest equipment fleets in the country with a wide range of diversity. The company currently has 73 heavy equipment machines registered under its name from different International origins.

The large number of equipment complete the necessary ingredients required to complete any project that we work on. With the equipment available our company has a team of professionally trained drivers and technicians with the experience and skill required. In addition, modern maintenance workshops managed by a professional team with a high level of expertise is used to maintain and repair all of the equipment.

The wide variety of our fleet and its different types of mechanisms between transports, loaders, heavy cranes and forklifts ... etc. give us the ability to work on many diverse projects and under different conditions.

Construction Heavy Equipment's and Machines

Concrete Equipment

Another activity in the company is our concrete services that we are able to provide with our large fleet of equipment and infrastructure. Our company currently owns 13 concrete pumps ranging in all sizes from 34 m up to 61 m. In addition to 20 Concrete mixers and two concrete batching plants. All the equipment mentioned above is available to be rented in the local market and may also be purchased. Our company currently transports and delivers concrete with pumps for many private company's and construction sites in Iraq.

Our team of foreign and local operators are professionally trained to operate each equipment in a safe and effective manner.

Concrete Equipment

Oil & Gas Service

Balad Al Silm Co. is focused on and committed to the supply of petroleum's related equipment to fulfill the needs and requirement of our customers working in the oil and gas field.

Balad Al Silm Co. is involved in supplying equipment for petroleum industries service such as:

- **Well logging equipment**
- **Nitrogen pump unit**
- **Mud logging equipment**
- **Cementing unit**
- **Acidizing unit**
- **Chemical Injection**
- **Nitrogen Purification Unit**
- **Hydrogen purification unit**
- **Oil pump Station**
- **Metering and pressure reduction**
- **Valves for Gas and Oil Networks**
- **Fittings and Flanges**

We put pride in providing world class quality products to our customers not only in time but also at competitive prices.

Balad Al Silm Co. has been supplying the following equipment to one of the well-known oil company's in Iraq (MISSAN OLI COMPANY)

- Well logging equipment USA Origin
- Nitrogen pump unit trailer mounted USA Origin

Contract EPC Turn - Key Job - Drinking Water Project Alekhala in the Province of Missan

One of our significant strategic projects completed as an (EPC) construction and delivery is the drinking water project of Al Khaha city and Bani Hashim District in Missan province.

Project 's Capacity is 2000 m³/h, we have been in contract with the Ministry of Municipalities and Public Works for the completion of this project.

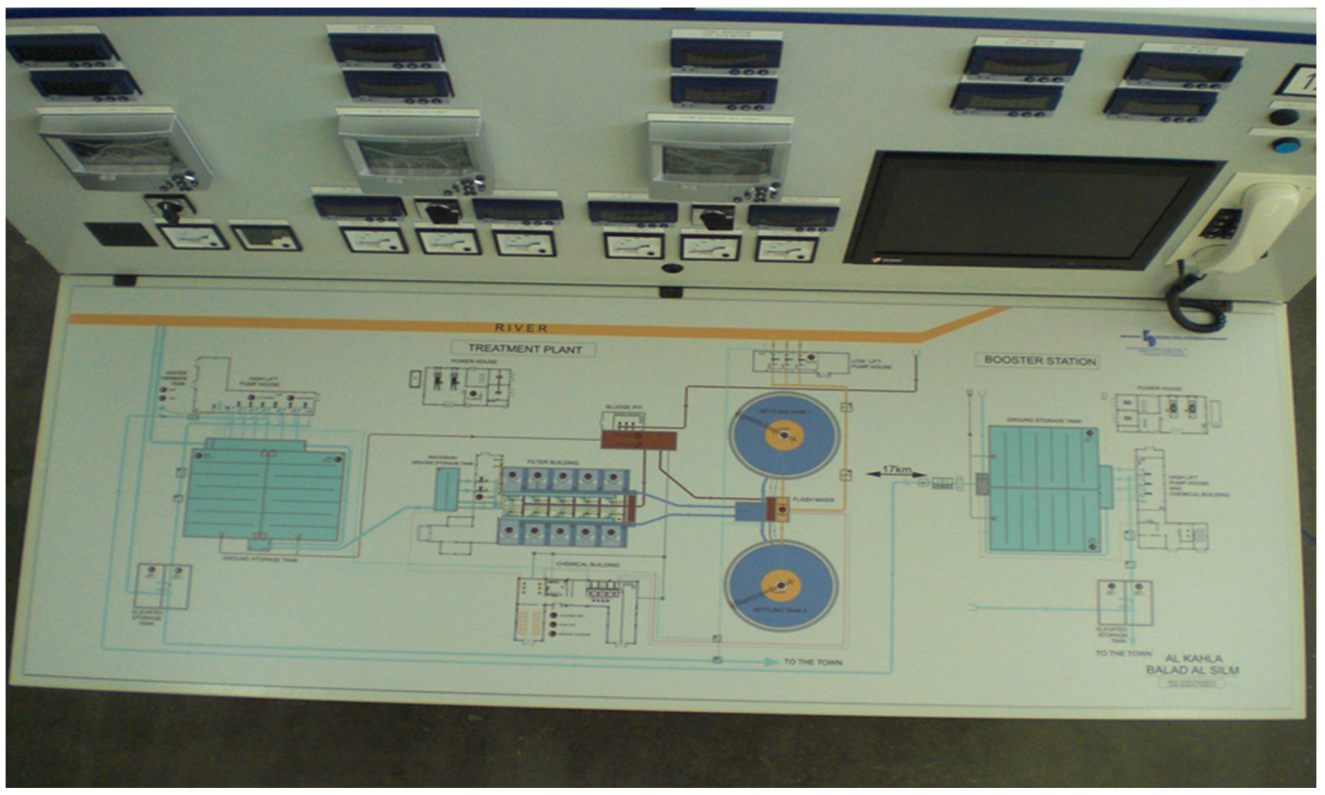

Our company was successful in carrying out all its duties through this project by being able to deliver safe drinking water for these areas.

Balad Al Silm Co. used the latest process technology and modern equipment for treating, testing and pumping with modern laboratory testing equipment, all materials and equipment have been supplied by well know companies with Europe Origin like PAM French Company for supplying the Ductile pipes for the main and accessories, ABB electrical equipment and NOVA Hydrotechnic - Swiss Company, for designing and supplying all mechanical and electrical equipment.

Contract EPC Turn - Key Job - Drinking Water Project Alekhala in the Province of Missan

Contract EPC Turn - Key Job - Drinking Water Project Alekhala in the Province of Missan

Contract EPC Turn - Key Job - Drinking Water Project Alekhala in the Province of Missan

Supply Pipes and Equipment For Water Project Hay and Al Mowafaqyha

Through this contract with the Ministry of Municipalities and Public Work – General Directorate of Water our company successfully achieved supplying of all the materials required within the contract time limit.

The project was completed with the potential and resources capabilities of our company.

Having a very good and firm business relationship with many global companies over the world, has guided this project and all our other similar project to be successfully completed.

Supply Pipes and Equipments For Water Project Hay and Al Mowafaqyha

To sell our products in Iraq, provide spare parts and after sale services.

Best Regards,

Managing Director

Gorica Industries L.L.C.

Agreements and Participation

C. Balad Al Silm Co. is the exclusive agent for CBO concrete equipment spare parts in Iraq.

Our company has recently obtained an exclusive agency for a top Turkish Concrete equipment spare parts manufacturing company called CBO.

CBO facilities are fitted with state of the art technology for the manufacturing of spare parts. High precision CNC machine tools with carry out sophisticated machining on a daily basis. CBO products, although not being genuine spare parts, have the same quality and technical level, perfectly reflecting the manufacturing processes and quality control. CBO's wide range of products cover almost all concrete spare parts for concrete mixers and pumps.

Agreements and Participation

Investments

Balad Al Silm Co. had signed investment contract for land at the Free Zone in Khoe Al Zubair. This enables us to increase our business activity by acquiring new projects within the industrial and trading field. The land currently consists of two parts the first is 16,000 m² with a shed area of 2,400 m² and the second land is 12,861 m² with a shed area of 1,930 m². Each has a warehouse with a total area of m². The Land is currently being used to store oil rigs for Oil companies in Basra.
